

ASSIGNMENT

behance site

[OVERVIEW](#)

overview

A Behance site was created for Project 2.

Then on Monday December, 7th, student must paste in the URL by the start of class; however, it will not be graded for credit until the last day the class meets on Monday, December 14th. This reinforces how URLs stay the same even when they are updated.

The upkeep of one's work on the social media site Behance is also an excellent step to take before the student builds a final portfolio site under her/his new brand in Professional Practice/Portfolio Capstone courses taken in the final spring semester of the BFA in Graphic Design degree at A-State.

assessment

This project is simply CR or No CR and is part of the Participation aspect of the course grade.

RUBRIC:

- URL listed on Slack as directed.
- Directions were followed accurately with absolutely no errors.
- Minimum required elements uploaded to site.
